TOWN WARRANT

The State of New Hampshire

To the Inhabitants of the Town of Amherst in the County of Hillsborough in said State, qualified to vote in Town Affairs:

Polls to open at 8 a. m. and close at 1 p. m.

You are hereby notified to meet at Amherst Town Hall in said Amherst on Tuesday, the 9th day of March, 1954, next at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see if the town will vote to give the Selectmen and the Town Treasurer authority to borrow money in anticipation of taxes.

4. To see if the town will vote to allow a discount of 1½% on property taxes paid by May 1st, 1954. Any persons paying on their 1954 tax an amount equal to 80% of their 1953 tax to be allowed the benefit of 1½% discount on their property tax bill if paid in full by December 1st, 1954.

5. To see if the town will vote to raise and appropriate $300.00 to purchase a new adding machine for the use of Town Officers. The present obsolete and inaccurate machine to be traded for the best allowance possible.

6. To see if the town will vote to raise and appropriate $50.00 to complete payment of cost of printing and preparing Town Inventory.

7. To see if the town will vote to raise and appropriate $750.00 for the purchase of a Tar Kettle for the use of the Highway Department in repairing and patching the hard surfaced roads of the town.

8. To see if the town will vote to raise and appropriate money to repair or replace fence at Cricket Corner Cemetery.

9. To see if the town will vote to raise and appropriate $200.00 for a minimum of 25 street signs.

10. To see if the town will vote to raise and appropriate $300.00 to continue the curbing and grading on the middle common, to the extent this amount will allow.

11. To see if the town will vote to permit the use of a portion of the Highway Department land adjacent to the school property for the construction of a tennis court; such court to be built by public subscription and donations at no cost to the town and become Town property when completed. Purpose, to promote additional recreational facilities for Amherst children. (By petition.)

12. To see if the town will vote to raise and appropriate the sum of $975.00 to straighten and eliminate the curve approach to the foot of the steep hill below the property of Robert Wilcox, known as Mack Hill. (By petition.)

13. To see if the town will vote to raise and appropriate money to oil Thornton Ferry Road from where the oiled road now ends at Green's Corner to the corner just beyond the house of Harry Carter, Jr. (By petition.)

14. To transact any other business that may legally come before this meeting.

Given under our hands and seal this 19th day of February, 1954.

ARTHUR L. UNDERWOOD,
ERNEST C. STEWART,
J. F. WANLESS,
Selectmen of Amherst.

REPORT OF HIGHWAY AGENT

During the spring months it was necessary for the Highway Department to gravel several sections of road to correct muddy conditions.

On March 27th the grading program was started for the summer months.

The summer maintenance program took care of all necessary repairs to roads, culverts, and the cutting of brush.

Under the oiling program there were about fourteen miles resurfaced with MC-3 asphalt. Considerable amount of money was spent patching these roads before oiling.

Your Road Agent feels that if the town owned a tar kettle, much could be saved on patching. The town has about forty miles of black road now which requires a tremendous amount of patching. I believe a tar kettle would pay for itself in two years.

T. R. A. money was spent on one and one half miles of road in the south end of town (Route 122 to the South Merrimack Road). This year T. R. A. money will be spent on two or three roads in different sections of the town. All this work will be done under the new long range program, drawn up by the Road Commissioners.

HAROLD L. ALDRICH,
Highway Agent.

REPORT OF HIGHWAY AGENT
Harold L. Aldrich

REPORT OF THE TRUSTEES OF TRUST FUNDS

In 1952, as reported a year ago, your trustees sought to improve the income earned by the trust funds entrusted to their care. Therefore, during 1953 additional shares in sound investment companies, approved by the State of New Hampshire for this purpose, have been purchased. The accompanying report names all investment companies in which shares are now owned by the trust funds, and indicates the extent of the holdings in each.

Common Trust Fund A, referred to in our report for 1953, now includes all trust funds established during or before 1952 with the exception of the Mary P. Nutt School Fund. The new trusts established during 1953 will form the nucleus for a Common Trust Fund B, to be set up in the future.

Our experience so far with the investment trusts has been good, and it should so continue; this raises the question (which has been asked) "why not sell the government bonds and not wait for them to mature?" The answer is that the higher income of investment trusts is largely dependent upon a continuation of good profits in industry, and so it seems best to keep some of our principal in government bonds, at least until they mature.

We did sell $5,000.00 worth of Series G. bonds and realized $4,895.00 from the sale because the bonds still had two years to run; however, with the return from the investment trusts the same as it has been, the income from the new investment during the two year period will not only wipe out the $105 loss, but we will have about $45.00 more than we would have received if we had held the bonds two years longer.

Writing up the new books, which we referred to a year ago, has been completed, including a new ledger carrying the details of each of the two hundred thirty-nine funds; Library, School, Highway, and Cemetery.

In addition to the perpetual care of cemetery lots, we have spent one hundred and sixty-four dollars remaking the lawn outside the fence, and straightening and resetting tombstones at Meadowview; we also contributed $150.00 to the town's cemetery appropriation.

The following disbursements were made from income during 1953:

Amherst Town Library	$ 298 97
Amherst School District	533 58
Town of Amherst — Highway Maintenance	25 00
Cemetery improvement and maintenance	339 66
Perpetual Care of cemetery lots	750 35
	$1,947 56

MERIC G. ARNOLD,
ARTHUR P. BONNEY,
HOWARD G. ARNOLD,
Trustees of Trust Funds.

AMHERST TOWN LIBRARY

Librarian's Report

This past year has been one of great activity in the library; 41 new patrons have registered their names.

During the year 401 books have been accessioned to the library. Of these, 145 books have been classified as adult fiction, 39 as adult non-fiction, 158 juvenile fiction, 59 as juvenile non-fiction, and 26 of these were given to the library. There are also 19 magazines and one newspaper which are available to borrowers.

The State Bookmobile still is of great value to your library, calling about every ten weeks. A total of 521 adult and children's books have been loaned to us through this service.

The State Library also will loan to anyone, upon special request, books of a specialized nature which your local library does not have. Many people have borrowed books in this manner this past year.

We wish to thank the following people for their gifts of books and money: Mrs. Heckman, Miss Ethel Putnam, Mrs. Carl Peterson, Mr. Shirley Carr, Amherst Men's Club, Mr. Arthur Bonney, Mr. and Mrs. Philip Holmes, Mrs. Norwin Bean, Mrs. Carl Smith, and Mr. C. J. Campbell.

The November meeting of the P. T. A. was held at the library during National Book Week. The guest speaker of the evening was C. W. Anderson of Mason, author and illustrator of many children's books. The library was very attractive with table displays of many children's and adult books.

The circulation for the year has been as follows:

Adult fiction	2561		
Adult non-fiction	599	Juvenile fiction	4319
Adult magazines	961	Juvenile non-fiction	727
Total	4121	Total	5046

Grand Total Circulation: 9167

The Librarian and Trustees wish to thank Mrs. Virginia Chambers for the floral arrangements which she has placed in the library during the year.

The library hours are: Tuesday and Friday, 2 to 5 p. m., and Friday evenings, 6:30 to 8:30 p. m.

Respectfully submitted,

MARION U. NELSON,
Librarian.

January 4, 1954.

December 31, 1953, cash on hand	333 51
	$2194 49

HENRY B. MITCHELL,
Treasurer.

A NARRATIVE REPORT OF THE SELECTMEN

Amherst is a true example of a New England town, due to its Colonial character and beauty, being one of the very few wholly residential towns existing in the State. Because of the nearness of large cities, improved State highways and commuting time, we are faced with the problems of expansion. All these factors demand increased cost for expanded services. We all must bear in mind that the cost of the town government is determined at the Town Meeting and the School Meeting. The increased cost of Schools necessitated an increase in 1953 tax rate over 1952 from $2.98 to $3.29 in the School rate. Town rate was reduced from $2.02 to $1.93. The financial standing of our Town is splendid. Let us all cherish this fact and do our utmost to continue this condition.

Town Hall

Following action taken at last Town Meeting, a septic tank was installed for the kitchen, and with proper care this should remedy the waste disposal problem. The kitchen ceiling has been painted with washable paint, and when the walls are painted, this will result in a modern, sanitary room. One other problem faces us in connection with the smoke and soot from the gas water heater and stove. Plans are being considered to place a shield over the stove connecting to a small pipe from the heater to exhaust through outside wall, over the stove.

Insurance

The insurance program voted in the 1952 Town meeting was completed in 1953, and on the recommendation of the Insurance Committee, the insurance on the Town Hall, Library, Fire House and Barn was increased to $105,000.00, total divided as follows: Town Hall and contents $46,500.00, Library and contents $45,000.00, Fire House and equipment (less vehicles)

$11,000.00, Barn and contents (less vehicles) $2,500.00. The annual cost to maintain this program in the future is approximately $600.00.

Fire Department

During the past year, the Fire Department has purchased two Scott Masks, with extra tanks. Trained eight men in its use. This equipment is especially useful to combat the effects of smoke inhalation or preventing death by drowning. We have a problem this year of storing the old hand tub fire engines. Temporarily they can be housed in the Town Barn. If in the future an addition is built on the back of the Fire House, it should be large enough to house a small emergency truck. This truck would contain the forest fire pumps, Scott Masks, stretchers, shovels, etc. It would attend every fire, and in many cases avoid the need of using the large equipment. We feel that a good used truck would answer this purpose. The fire alarm system with the Central Control Panel in the fire house and 14 fire alarm boxes, located in the town, was completed and accepted by the proper authorities in 1953. The following article appeared in the Milford Cabinet on February 4, 1954:

How to Report a Fire in Amherst

The air horn on the fire station is now operated from a master fire alarm box in response to telephone alarms. A new telephone circuit is being installed to alert all key personnel from a single telephone line. This will result in a change in the telephone number shown in the new telephone directory just distributed. Therefore please do not call by number.

To report a fire, call the operator and say "I want to report a fire in Amherst." As soon as the call is answered, give the location of the fire and your name and telephone number.

Areas outside the Village District must continue to report fires by telephone. Inside the Village District, the telephone may still be used, but the use of one of the new fire alarm boxes is urged whenever possible as this

method operates the air horn on the fire station direct from the street box, giving a coded signal to identify the location and automatically providing a permanent record of the alarm on the tape register in the fire station. It is immediate in action and eliminates confusion as to location.

We accepted with regret the resignation of Fire Chief Ashton L. Martin effective December 31, 1953, and appointed in his place Arthur L. Daniels who has been First Assistant Chief, and we believe he will carry on the high standards of our Fire Department.

Police Department

Our Police Department, because of the heavy traffic on Route 101, were requested by the State to check speeding and careless driving. This item required an additional expenditure, but we feel that it is a must to continue this traffic duty, and try to give our town a clean record.

T. R. A. Overdraft $610.00

After conferring with the State Highway Department, it was decided to complete road No. 66, this was because the original funds were exhausted before completion of the road. The Selectmen forwarded a check in the amount of $610.00 to cover cost of completing the project. This amount will be returned to us by the State July 1, 1954. At the time the funds were exhausted, the road was completely gravelled and the hard surface was finished to within five tenths of a mile of completing the project. If the road was not finished while the trucks and workers were available, it would be necessary to rebuild the unfinished portion in 1954, at a greater cost.

Town Report Award

In recognition of our 1952 Town Report, the Bureau of Government Research of the University of New Hampshire, awarded Amherst third place in Class Three Towns (population 1,000 to 2,500).

Miscellaneous

In accordance with the vote of the Town Meeting, the following was accomplished. Article No. 8—Library fence scraped and painted. Article No. 9—Residents of Hillside Avenue, Baboosic Lake area are well satisfied with the road improvement. Article No. 11—the Town Hall roof was painted and repaired. Aluminum gutters installed where necessary. The appropriations were adequate in every case.

Our Cover

On our cover we pay tribute to Fire Chief Ashton L. Martin, who retired on December 31, 1953, after forty years as a member of the Amherst Fire Department and for the last 24 years its Chief. During the same 24-year period he was also Forest Fire Warden. All of his duties were handled conscientiously and efficiently.

We feel sure the whole town joins in wishing him and Mrs. Martin, who cheerfully and efficiently handled innumerable telephone calls, all happiness and joy in the leisure this change will afford.

Conclusion

In conclusion, your Selectmen wish to thank all of the Town Committees and Departments for the splendid cooperation they have given during the year 1953. It was very helpful and tends to create a more efficient government.

Arrests	16
Safe keeping	1
Motor vehicle accidents	14
Breaking and entering	3
Defacing property	1
Warning to operators of motor vehicles	50
Dances at Lake	24
Dances at Town Hall	38

Chevrolet Fire Truck out (for fires)	3
Combination Ford Truck out	21
Tank Truck out	24

Paid 494 men, $741.20

266 called up for burning beside written permits.

The firemen have had more training lessons this year than usual.

Several firemen attended the Training School put on by the Fire Chief Club of N. H., near Portsmouth.

A. L. MARTIN,
Fire Chief and Forest Fire Warden for 1953.

BOARD OF HEALTH REPORT

To the Honorable Board of Selectmen and
Citizens of Amherst, New Hampshire

I herewith submit my report as Health Officer for the year ending January 1, 1954.

With the full time of the School Nurse numerous calls and reporting of contagious and infectious diseases in connection with the health department are cared for quickly and efficiently, the greater number of these cases starting in school or school ages.

The usual number of Neighborhood Feuds exist regarding infringement of rights, i.e., keeping dogs, swine, spreading fertilizer, etc., within certain distance of boundary lines of property.

It is the policy of this department to dispose of this type of complaint in a reasonable and equitable manner and without the injurious results of publicity.

A rapidly developing area of Amherst which requires constant supervision is the section of town on the 101-A leading to South Merrimack. This area is made up of new homes, garages, recreation area and eating places. The cooperation of the owners has been very good, although there are many items of misunderstanding which require time and consultation.

During the past season little has been heard from the Baboosic Lake section, probably by reason of the drinking water problem having been taken care of through the State Board of Health — this matter has always been the outstanding item of that section of the town. Chlorination of the water has been supervised by the State.

The Superintendent of the new water system should be commended. The areas around the well and standpipe are clean and well cared for. The type of water is good as reported by the State.

It is my opinion that the town of Amherst is as free from health problems as the average town, and surpasses many.

Respectfully submitted,

OSCAR BURNS, M.D.

February 1, 1954.

TREE COMMITTEE REPORT

Interest in the care and preservation of our trees increased noticeably in 1953.

The long range program of spraying, pruning, feeding and planting was carried on through the year. In addition to the town appropriation, interested property owners and organizations also contributed to the underwriting of the above costs. New trees planted included two Elms, three Lindens, and six Maples, all on the town commons.

Although definite progress is being made we are still faced with heavy odds – continued dry summers and the Dutch Elm disease, which showed up in 36 additional New Hampshire towns this past year. We should be grateful that so far Amherst has escaped. The big preventive is in keeping our Elms vigorous and healthy. This is just what the Tree Program is trying to accomplish, but its funds are meager.

Spraying all Elms, both town and private, is the important item. The town spraying cost leaves little for individual tree work. We must hope that we will continue to receive cost participation by residents on tree work done facing their property.

Respectfully,

CREELEY S. BUCHANAN,
F. TENNEY CLOUGH,
ROBERT W. SEAMANS, Chairman.

January 30, 1954.

SEXTON'S REPORT

Your regular 1953 appropriation was used by spending $199.61 on the Old Cemetery; $83.95 on the Cricket Corner Cemetery; $36.94 on Chestunt Hill Cemetery; $5.75 on the Ponemah Cemetery and the balance on Meadow View Cemetery. The Special Appropriation for the Old Cemetery of $152.72 was used as intended. Through an accident of an unknown truck, about 25 to 30 feet of the front wall was knocked down and had to be repaired. $89.05 was paid to Guy Nelson and $7.44 for cement and other material, making $96.49 for the repair. The balance of the $152.72 was used to straighten a good share of the head stones in the Cemetery. This sum was given to the town by the Trust Fund.

Also the Trust Fund paid for making a new lawn in front of the Perpetual Care area of Meadow View Cemetery which amounted to $98.66. Another sum of $65.40 was paid by the Trustees for straightening monuments in Meadow View.

The curbings of some of the town care lots have been an eye-sore for a number of years. The frost and roots have heaved them making the lots look uncared for. The Selectmen, Road Agent and Sexton agreed the old curbing could be used in the village around the World War Memorial lawn, not only to beautify it but to keep cars from parking on it. Harold Aldrich removed them and placed them around a part of the lawn, doing a very good job and from all reports the majority of the townspeople are well pleased. The lots they were taken from were lowered and seeded, making a much better looking cemetery. No Perpetual Care curbings were used.

Your Sexton thinks one of our big problems now is the fence at Cricket Corner Cemetery. This fence is rotten and broken. The top boards are decayed so bad that they will not hold nails and would be money thrown away to try to paint. There are two ways of

putting up the fence. One way is to use wire which should last years without expense of painting. The other is to copy the old fence, using boards again and painting every few years. The Trust Fund cannot be used on this cemetery as the gifts for improvements are specified for the Meadowview Cemetery only. The Selectmen, Trustees and Sexton are inquiring into the cost of this fence, both wire and boards, and will be able to give approximate figures at the town meeting. Your Sexton intends to put a new lawn on the new roadside, as that seems to be the most traveled side since the new road.

There were 19 burials, all of which were in the Meadowview Cemetery.

CLARENCE H. HAGAR,
Sexton.

OFFICE OF ADMINISTRATIVE OFFICIAL ZONING ORDINANCE

February 8, 1954

The Selectmen
Amherst, New Hampshire

Sirs:

During the calendar year 1953, 22 permits were issued under the Zoning Ordinance.

Respectfully submitted,
WILLIAM C. VOSE.

REPORT of FOREST FIRE DISTRICT FIRE CHIEF

Number of fires	10
Acres burned	2¾
Costs	$221.00
Permits issed and returned	15

Note acreage compared with number of fires.

G. O. HOLLIS,
District Fire Chief

DUMP TRUCK COMMITTEE

To the Board of Selectmen and Citizens
of Amherst, N. H.:

The Committee appointed by the Moderator to investigate the advisability of the town to purchase a dump truck submits the following report.

The prices of four of the popular makes of trucks were studied. A truck suitable for the town would cost about $4,000. This price includes needed extras such as spare tire, chains, flares, etc.

Estimated average yearly operating expenses would be, gas and oil $300; depreciation $800; insurance $140 and repairs $160. Repairs on town owned equipment are usually more than privately owned.

The town now pays the road agent for the use of his truck (the vehicle that a town truck would replace) $2200 to $2400 a year.

If the town owned a truck, other trucks would have to be hired for snow plowing, oiling and road work. Sooner or later the town would need a new garage to keep equipment in. Everyone knows that the town has plenty of building problems now.

Your Committee advises against the purchase of a town dump truck at this time.

ORSON BRAGDON,
MERIC G. ARNOLD,
ROBERT BRYANT.

REPORT OF THE AMHERST ROAD COMMISSION

To the Citizens and Taxpayers of Amherst:

Your Commission suggests the following use of T. R. A. funds:

First: To maintain properly our present hard surfaced system. (This would involve T. R. A. funds if the re-oiling appropriation proves insufficient to meet actual needs.)

Second: To use the balance to properly construct as much new road as possible, most of which will be gravel surfaced rather than hard surfaced. By "properly constructing," it is meant to provide adequate drainage, to provide for easy snow removal, to eliminate part of the brush control problem, minor straightening, and to cover with an adequate thickness of gravel. It is apparent that in the past we have tried to stretch our new construction dollars too far.

Since experience has shown how difficult it is to predict in advance just how much any given project will cost, no attempt will be made to state just when any specific project will be undertaken.

The following projects have been viewed by the State engineers and will probably be included in the new long range program, but not in any special order:

Top of Chestnut Hill
Top of Mack Hill – past Hubbard's
Top of Christian Hill – to Mann's
Thornton Ferry Road – to Carter's
North Street

One project remains on the old program – Ponemah Hill, as well as some sealing to be finished on the new construction of 1953. It is felt by the Commission that this work should be finished before starting on a new program.

We want to call your attention to the almost complete lack of culvert guards throughout the town.

As a result of our investigation covering the construction of roads in other sections of the state we recommend the balance of the roads contained in the long range program be of the penetration top method over proper construction instead of the socalled road mix or plain gravel method.

Respectfully submitted,

RAYMOND STIMSON,
RICHARD WESTON,
HAROLD WILKINS, JR.,
Road Commission.

AUDITORS' REPORT

We hereby certify that we have examined the accounts of the following town officers:

Selectmen, Treasurer, Clerk, Tax Collector, Road Agent, Trustees of Library, Trustees of Trust Funds, Judge of Police Court, and find them correctly cast and properly vouched.

GEORGE H. HOWARD,
ORSON H. BRAGDON,
Town Auditors.

February 4, 1954.

WARRANT

The State of New Hampshire

To the Inhabitants of the Amherst Village District in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Amherst Town Hall in said Amherst Village District on Friday, the twelfth day of March next, at eight o'clock in the afternoon, to act upon the following subjects:

1. To choose all necessary Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray charges for the ensuing year and make appropriations of the same.

3. To act upon a proposal to replace the present Rules and Regulations of the Amherst Village District by those proposed by paragraphs 1 through 29 attached hereto and published in the Amherst Town Report.

4. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 23rd day of February, in the year of our Lord nineteen hundred and fifty-four.

HENRY B. MITCHELL,
CARL E. PETERSON,
F. TENNEY CLOUGH,
Commissioners of Amherst Village District.

Proposed Rules and Regulations Printed on Pages 70-74

AMHERST VILLAGE DISTRICT

The water system has just completed its second year of operation. The total number of water services is now 120, representing a net increase of 14 during the year.

The original bond issue of July 1, 1950 was for $155,000.00, of this amount $6,000.00 was retired during the year, leaving a current bonded indebtedness of $149,000.00. A like amount is to be retired during the coming year.

The new fire alarm system, for which the district voted two years ago, was placed in service on October 1. This constitutes an expansion of the previous system to include 14 street boxes, a master box for telephone alarms and special signals, and a tape register in the fire station.

Insurance rates for residences, based on a valuation of $100.00 for a three year period were reduced from $1.00 to $.70 when the water system was placed inservice two years ago. These rates were further reduced to $0.57 upon completion of the alarm system.

The state board of health continues to report favorably on water samples which are submitted periodically.

Telephone Alarms

The air horn on the fire station is operated by a master box in response to telephone alarms.

To sound an alarm, call the telephone operator and say: "I want to report a fire in Amherst." As soon as the call is answered, give the location of the fire, also your name and telephone number.

Fires outside of the Village District must of necessity continue to be reported by telephone. Within the

District fires may continue to be reported by telephone if desired, but the use of a street box is recommended wherever possible.

Box Alarms

Any street box will immediately sound the air horn on the fire station, giving a coded signal to identify the location. This signal is automatically and permanently recorded on a tape register. It eliminates any confusion as to location.

To sound an alarm, pull the white handle on the front of the box. This will expose the operating lever. Pull the operating lever down as far as it will go. Wait at the box until the fire department arrives, then direct it to the fire.

An article appears in the warrant for revision of the Rules and Regulations. After two full years of operation it appears advisable to make certain minor revisions in some instances, and to further clarify others.

A penalty provision has been added for non-payment of water bills. While the vast majority of consumers pay bills promptly, there are always a few which require considerable follow up on the part of the Superintendent. It is felt that those whose bills are in arrears should pay the extra cost involved in their collection.

The rates for water service have been revised in-so-far as they apply to new services and summer properties where the billing covers less than a full year, also for water used for construction purposes.

The article relating to extensions of the water system has been modified to provide a more equitable method of financing extensions during the period of amortizing the original bond issue. Thus, although the cost of any extension must be borne by the owners of properties which are benefitted by it, credit is given in proportion to the period during which these properties,

through precinct taxes, contribute to the amortization of the bond issue. It is felt that this provision will foser extensions to the water system which are necessary in a growing community, on a basis which will not increase the burden of the present owners and water takers in the District, and which will at the same time not place an undue burden on those to be served by the extension. It is expected that new tax proceeds from the properties to be served by such extensions will be sufficient to repay any short term borrowings for financing the District share of the cost of such extensions.

AMHERST VILLAGE DISTRICT
Amherst, New Hampshire

Article 3:

To see if the District will vote to strike out articles 1 through 21 of the rules and regulations of the Amherst Village District dated January 2, 1952 and substitute therefore the following:

Application

1. Application for water service must be made by the owner of the property to be served. This must be done on a form which is to be filed with the commissioners, containing an agreement to abide by the rules and regulations of the District. Any change in property ownership requires the filing of a new application with responsibility falling on the new owner to make certain at the time of purchase that there is no amount of lien represented by unpaid water service charge at the time of purchase.

2. Owners of premises will be held responsible for water consumption at rates prescribed. No collection of water service charges will be made from tenants except at the written request of the owner upon whom the responsibility for payment will still rest. This exception cannot be granted in cases where two or more tenants are served by a single meter.

3. No water service applicant will be allowed to supply water to any person not entitled to its use without permission of the superintendent and under his direction.

Installation

4. All ordinary service connections will be laid at the expense of the District to the property line where a curb stop and waste valve will be placed.

5. At the option of the owner of the premises, pipes and necessary fittings may be placed by the District on the owner's property up to a point of suitable location for a meter including a stop and waste valve at the meter location, the property owner to pay for that portion of the installation within his premises.

6. On all services laid from the property line into the premises which are not made by the District, the ditch must remain open for inspection by a representative of the District before backfilling. All piping to be not less than five feet below the surface of the ground. Pipe to be either cement lined or copper or such other pipe as may be approved by the District in writing, up to the location of the meter. All meter locations must be approved by a representative of the District before water is turned on.

7. No person except employees of the District will be permitted at any time to open or close a service shut-off valve.

Meters

8. Meters will be installed by the District on all use services.

9. No meter shall be disconnected, removed, or disturbed except by a representative of the District.

10. The accuracy of the meter on any premises will be tested by the District on written request of the owner, who shall pay in advance a fee of four dollars to cover the cost of the test. If on such test the meter is found to register over three per cent more water than actually passes through it, the meter will be repaired and the fee of four dollars refunded to the owner, and the water bill for the period will be adjusted according to the results of the test.

Protection of Service Pipes and Meters

11. All persons taking water shall at their own expense keep their service pipes within their premises in good repair, and protect both pipes and meters from damage by frost or other cause. The property owner will be reld responsible for all damage to a water meter from freezing, hot water backing up from house boilers, or other abuse. Property owners are advised to install check or vacuum valves, or other safety devices on boilers or water tanks of any description which are dependent on pressure in their water pipes to keep them supplied. In any case of danger to them, the owner should open hot water faucets when the water supply is shut off and let them remain open until the water supply is turned on again. Risk of damage in such cases is exclusively on the owner.

Water Service Rates

12. A minimum charge of $30.00 will be made for quantities up to 40,000 gallons consumed during a calendar year. All water in excess of 40,000 gallons but not exceeding 100,000 gallons will be charged for at the rate of 40 cents per thousand gallons. All water in excess of 100,000 gallons but not exceeding 500,000 gallons will be charged for at the rate of 25 cents per thousand gallons. All water in excess of 500,000 gallons will be charged for at the rate of 20 cents per thousand gallons.

13. In cases of new consumers and summer properties where the water service is in effect for less than a full year, the $30.00 minimum yearly charge and the 40,000 gallons covered thereby, will be adjusted according to the period beginning on the first day of the calendar month during which the service is turned on, and extending to the last day of the calendar month during

which the service is turned off, or to the last day of the calendar year if the service continues in effect.

14. Owners of summer properties and others wishing to temporarily discontinue water service must pay a fee of $1.00 for turning off and $1.00 for turning on the water service each time they request the District to do so. This is in addition to the charges listed in articles 12 and 13.

15. The annual minimum charge of $30.00 to be billed quarterly at $7.50 per quarter, at the end of each 3 month period, during the calendar year. Any excess over the 40,000 gallons covered by the minimum charge will be billed annually at the end of the fourth quarter.

16. Unmetered water will be provided for construction purposes upon application filed on the regular application form. A charge of $2.50 will be made for each calendar month during any part of which such service is in effect. Upon completion of construction, a meter must be installed and charges made in accordance with article 13.

17. On all services not covered by the above schedules, application may be made to the Commissioners for applicable rates.

Penalties

18. A quarterly charge which remains unpaid when the next quarterly bill is issued will be subject to a fine of fifty cents. If two previous quarterly charges remain unpaid when a quarterly bill is issued, one for three months and one for six months, a total fine of one dollar and fifty cents will be incurred. Any bill containing two such arrearages must be paid within thirty days or the service will be shut off without notice. The superintendent is not authorized to accept payment in lieu of shut off. All payments must be made to Treasurer, Amherst Village District. Once shut off, restoration will not be made until all charges and penalties have been paid in full plus a charge of two dollars for shutting off the service and turning it back on again.

19. If water is supplied to more than one premise through a single tap, the water may be shut off in case of non-payment of either party or parties, notwithstanding that the other party or parties have paid their amount due.

20. Failure of a property owner to receive a bill does not relieve him from obligation for its payment.

21. Receipted copies of water bills will not be mailed to the payer unless a self-addressed stamped envelope accompanies the payment.

Use of Fire Hydrants

22. All persons are forbidden to open or close a fire hydrant except such employees of the Fire Department or District as may be authorized to do so, unless a written permit for use of water from the hydrant has been obtained from the Commissioners, stipulating the rate of charge to be made for water thus obtained.

Right to Prohibit

23. The Commissioners reserve the right to limit or prohibit the use of water as the public interest may require and to, at any time without notice, shut off the water for the purpose of making repairs, extensions, or for other purposes. In such cases, the Commissioners will try to give advance notice.

24. In cases where property owners also have a private source of supply, no piping or connections of any kind will be permitted between the private source of supply and the piping supplied by the District.

Extension of the Water System

25. Any extension of the water system within the District, as shown on the Record Plans by Fay, Spofford, and Thorndike as revised December 7, 1951 under which the system was completed January 2, 1952, shall be made only in accordance with the following rules:

(a) Extension to existing mains must be applied for in writing to the District Commissioners by the property owner or owners desiring such extension. Such written application must furnish satisfactory evidence that the owner or owners, requesting such extension, will pay the District for the cost of extension within thirty days after its completion. Pipe sizes for the extensions are to be determined by the Commissioners. Such extensions, if in roads dedicated to the public service shall become the property of the District.

(b) The cost of any extension of the water system when laid in a public way shall be borne by the abutters on a front foot basis, except that if the extension is made between July 1, 1950 and July 1, 1980 during the period of amortization of the bond issue for the construction of the original system the District will absorb one thirtieth of the cost of such extension for each full year remaining in the amortization period when such extension is made.

(c) If the Commissioners deem that hydrants shall be installed on such extensions, the cost of the hydrants will be borne by the District.

(d) Any extensions of the water system beyond the bounds of the District shall be dependent upon the expansion of the District to include the area to be served by such extension. If the District is thus extended, any extension of the water system to serve the area thus annexed, shall be made in accordance with items (a), (b), and (c) of this article.

(e) Annexation of any area which lies outside the District boundaries shall be by favorable action on a warrant article petitioning for such annexation at a regular or duly authorized special meeting of the District, such petition to be signed by a majority of the legally registered voters residing within the area to be thus annexed whose names appear on the Town of Amherst official checklist of voters.

General Rules

26. No person will be entitled to recover any abatement, compensation, or damages, on account of the shutting off or the limitation of the use of water for any cause which the Commissioners may deem necessary.

27. Any omission or delay on the part of the Commissioners or their agents in exercising the rights reserved under laws, rules or regulations shall not constitute or be construed as a waiver of such rights.

28. The Superintendent or his agent may enter the premises of any water taker at any reasonable hour to inspect pipes, fixtures, etc., which are used in connection with the water service.

29. The foregoing rules apply within the Amherst Village District as now or hereafter defined and become effective at the time of approval by the District.

REPORT OF THE JUSTICES OF AMHERST MUNICIPAL COURT

The Amherst Municipal Court has disposed of a greater case load than in any year since its inception. This has been due to some extent to the increased police activity on Route 101 and the apprehension of violators that heretofore went unnoticed. That these violations are serious is indicated by the fatalities and grave injuries that have resulted from careless operation on the new highway.

Your Justices feel that there is room for additional enforcement of the present motor vehicle laws to avert recurrences of the unfortunate accidents that took place during the past year. Constant enforcement is the only remedy presently available if the accident rate is to be kept within reason. To that end, your Justices suggest that if any balances remain on the accounts of the Court at the end of the year, they be allocated to support additional police protection in exposed areas of the town.

Juvenile cases have taken a greater proportion of the time of your Justices than during any previous year. It is felt that while the number of juvenile cases in the Amherst Court is not out of line with towns of similar size, nevertheless there is room for a greater awareness on the part of the townspeople of the extent of the work of the Court and the cooperating state agencies in connection with juvenile problems. Your Justices are always available to elaborate on the work of the Court in this field.

Respectfully submitted,

CHARLES J. LINCOLN,
WILLIAM C. VOSE,
Justices.

One of the most important records of a town is the Vital Statistics, not only for today but for years to come. If everyone would see to it that the records of their own family were fully and correctly filled out on Birth, Marriage and Death certificates when handed in for filing, it may be of great use to them or their descendants at some future day and a great help to this office in making out the records of today.

I hereby certify that the foregoing returns are correct to the best of my knowledge and belief so far as the information has been furnished by the reporting persons.

CATHERINE A. KRUGER, Town Clerk.

Report of

WAYS and MEANS COMMITTEE

Town of Amherst, N. H.

FEBRUARY 23, 1954

This Committee has carefully considered each item in the Town and School budgets and each Article in the warrants and has consulted with the departments concerned in its endeavor to arrive at as equitable recommendations as possible. We wish to express our appreciation for the ready cooperation which we received.

TOWN WARRANT

ARTICLE 1:

No comment is necessary.

ARTICLE 2:

We recommend approval of each item in the Town Budget except as noted and offer the following comments on some of the items:

Town Officers' Expenses: The increase in this item of $200 is accounted for in part by:

Printing town reports	increased	$75
Bonding Trustees	increased	$52
Bonding Tax Collector	increased	$6

The amounts of the bonds are set by the State Tax Commission. None of these items are likely to be reduced. Besides the increases shown, there has been a gradual increase in costs of supplies and services.

Election and Registration: This item is increased to the amount previously appropriated for biennial elections.

Town Hall Expenses: As the expenditures under this item have been:

1952	$1619.29
1953	$1569.15

the amount asked seems logical.

Police Department: This Committee considers the total amount requested to be necessary for better protection and traffic supervision.

Fire Department: The increase asked, $500, is principally to cover the cost of purchase of 2½" hose, partly additional and partly for replacement; also to cover purchase of helmets, fire extinguishers for two engines, and 3 smokemasks; and to cover the cost of the "red network telephone system". We recommend approval.

Long Range Tree Program: This Committee considers the program as outlined for this work to be essential for the preservation of the beauty of this town.

Summer Maintenance — Roads: For the last seven years, at least, $7000 has been appropriated for this item. With wages and truck hire, as well as the cost of supplies, increased, it is apparent that additional money is required to provide the same standard of maintenance. We recommend approval of the amount of $7500.

Oiling: The amounts appropriated during the last six years have been:

1948	$7100	1951	$5500
1949	$7000	1952	$6000
1950	$6000	1953	$7000

Thus, although the mileage of roads to be oiled was increasing each year, and although the price of oil had increased about 20% along with increases in wages and truck hire, the amount appropriated in 1953 only equalled that in 1949. That has meant less oiling done and the program is now five miles behind schedule. We recommend approval of the amount of $7500.

Cemeteries: Last year it was recommended that a program of major work be instituted by the Sexton and Board of Selectmen to be carried out over a period of years. We recommend that a portion of the appropriation be used for this purpose. We are advised that an amount of $150 will be available for cemetery work from a designated Trust Fund.

Special Insurance Fund: This amount of $609 will be the recurring annual cost of insurance under the new insurance program.

Merrimack Valley Region Association: We do not consider that Amherst will benefit to the extent that would warrant this expenditure. We recommend disapproval.

Snow Fences: The increase of $100 is for the purchase of snow fence, partly replacement and partly additional. We recommend approval.

ARTICLES 3 AND 4:

We recommend approval.

ARTICLE 5:

The present obsolete machine has resulted in errors, the detection of which meant great loss of time. We strongly recommend approval.

ARTICLE 6:

As this expense has already been incurred, we recommend approval.

ARTICLE 7:

Based on results of our investigation and on the strong recommendation of the State Highway Department, we consider the purchase of a tar-kettle to be a good investment and recommend approval of this Article.

ARTICLE 8:

The present fence is in need of repairs. Estimates are not at hand at time of printing and we withhold a definite recommendation until time of Town Meeting.

ARTICLE 9:

We consider that the report of the Street Naming

Committee should be accepted by the Town before an appropriation is made for road signs.

ARTICLE 10:
We recommend approval.

ARTICLE 11:
We recommend approval.

ARTICLE 12:
The road at this point is dangerous due to the sharp and steep curve. The school bus and other vehicles have been involved in accidents here. We recommend approval of this Article.

ARTICLE 13:
As this project is included in the long range program established by the Road Commission, we feel that the time for doing this work should be left for action by that Commission.

SCHOOL WARRANT

ARTICLES 1 THROUGH 7:
We recommend approval.

ARTICLE 8:
We recommend approval of this Article (Budget Items 1-19, 25, 26) except as noted and offer the following comments:

Item 1: The increase in this item is a proposed increase in salary of the Treasurer of $25.

Item 2. Amherst's share is 17.4% which figure is based half on valuation, half on number of pupils.

Item 3: This is based on number of pupils.

Item 4: The increase in this item is our share of the cost of the new position of "Helping Teacher" for the School District, plus an increase of $25 in the salary of the Census Enumerator.

Item 6: The increase of approximately $3,000 is in line with a proposed new salary schedule of:

	Basic	Max.
Salary for Less Than B. A. Degree	$2500	$3000
For B. A. Degree	$2700	$3200
For M. A. Degree	$3000	$3500

Yearly Increment of $100 for five years.

For purpose of comparison: The State Department of Education's survey of salaries of all full-time teachers, principals and supervisors for 1953-54 shows:

		Low	High	Ave.
Town Elementary Schools:	Men	$2205	$4300	$2958
	Women	2100	4300	2755
	Total	2100	4300	2785
City Elementary Schools:	Men	$2600	$5320	$3799
	Women	2300	5200	3589
	Total	2300	5320	3608

Amherst's population figures would place it in the first category above. However, the fact that it is located not far from centers of large population makes the procuring of good teachers more nearly like that of places in the second category. This Committee considers the proposed salary schedule to be a fair one and one which Amherst School District must meet if we are to retain good teachers.

Items 7 & 8: These are increased in direct proportion to the number of pupils.

Item 10: The amount of the increase in this item is for an increase in salary for the teacher of lip reading.

Item 11: This increase of $600 includes an increase in the janitor's salary of $100 and an amount of $500 for the part-time employment of a helper for the janitor,

made necessary by the added schoolrooms. We concur in this proposal as we consider that the work entailed in caring for the Brick School, the Annex, the Clark School and the new schoolrooms is too much for one man.

Item 12: It appears from fuel costs to date that $1600 will be required for this item. We recommend approval.

Item 14: The amount asked, $1650, is comprised of: Re-shingling the roof of the Brick School with asphalt shingles $1000; miscellaneous painting $500; plumbing $150. We are of the opinion that the re-shingling of the roof can safely be postponed. We recommend an appropriation of $650.

Item 16: The increase of $1680 includes an increase in present transportation costs of 10% plus the cost of an extra trip to Milford with High School pupils, made necessary by the increase in number of these pupils from 57 to 77. We recommend approval.

Item 17: This item is increased in direct proportion to the number of pupils: 57 @$250 = $14,250 to 77 @ $250 = $19,250. We concur.

Items 25 & 26: We recommend approval.

ARTICLE 9:

Item 20: We recommend approval.

ARTICLE..10:

Item 23: The amount asked, $752, is comprised of: Maps $200; Duplicating machine $212; 12 Desks $240; Table and 6 chairs $100. We recommend approval.

ARTICLE 11:

We recommend approval.

ARTICLE 12:

In view of our having insufficient information on this subject, we feel that we are not in a position to make a definite recommendation.

WARRANT FOR ANNUAL SCHOOL MEETING

The State of New Hampshire

To the Inhabitants of the School district in the town of Amherst, qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 5th day of March 1954, at eight o'clock in the afternoon, to act upon the following subjects.

1. To choose a Moderator for the coming year.

2. To choose a Clerk for the ensuing year.

3. To choose a Member of the School Board for the ensuing three years.

4. To choose a Treasurer for the ensuing year.

5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.

6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the ap-

propriation, which balance is to be raised by taxes by the town.

9. To see how much money the district will raise and appropriate for insurance on school property. (See No. 20 of Budget).

10. To see how much money the district will raise and appropriate for special repairs and alterations of school property and for new equipment. (See Nos. 22 and 23 of Budget).

11. To see if the district will raise and appropriate the sum of $2,100 to cover architect's fees on the recent construction of the Clark School Addition.

12. (By petition) To see if the district will vote to build and equip a new four room addition to the Clark School and take any other action relating thereto.

13. If the preceeding article is adopted to see what sum the district will raise and appropriate for the construction, equipment and furnishings for such an addition; and whether the district will vote to authorize the issue of serial notes or bonds upon the credit of the district for all or any portion of the sum so raised and appropriated; and to authorize the school board to determine the terms and conditions upon which the notes or bonds shall be issued including their sale, the time and place of payment of principal in accordance with the municipal bond statute, N. H. Revised Laws Chapters 72 and 55 as amended by Laws of 1953.

14. If the district has adopted the article for a new addition, to see if the district will vote to appoint a building committee to consist of the school board and four persons to be appointed by the moderator to select the location of the addition and to supervise the construction of said building, provided that the plans and specifications shall be approved by the school board acting alone as required by law and the school board

be further authorized to execute any and all contracts or agreements necessary in connection with the construction of said addition.

15. To see if the district will authorize the school board to make application for and to receive in the name of the district, such advances, grants in aid or other funds for educational purposes, as may now, or hereafter be forthcoming from the United States government or any state or private agency.

16. To transact any other business which may legally come before this meeting.

Given under our hands at said Amherst this 13th day of February 1954.

KENNETH GOODWIN,
DOROTHY J. DAVIS,
CURTIS R. WORTHEN,
School Board.

RETURN OF DISTRICT REVENUE, 1953

EXPENDITURES

Current Expenditures	$65,222 30

*Statutory Requirements				
January 27, 1954				$85,726.89

Note: Numbers at the left agree with forms approved by State Tax Commission. Omissions indicate that we do not use that column.

KENNETH GOODWIN,
DOROTHY J. DAVIS,
CURTIS R. WORTHEN,
School Board.

REPORT OF SCHOOL BOARD

The Amherst School Board is well aware that our local school problems are similar to those faced by other boards and school districts country-wide; moreover, those of you who have acquainted yourselves with the facts must agree; but we believe it is quite in order to remind you taxpayers of certain outstanding local conditions.

Leading articles in popular magazines are constantly featuring the crying needs of the public schools; enlarged facilities to care for the ever-growing number of children entering the first grade, the teacher shortage, and the sky-rocketing budgets needed to buy the necessary supplies and equipment for the pupils, to pay the salaries of the teachers and other personnel, and to heat, clean and maintain the present buildings as well as to finance additions and new buildings.

As for the enlarged facilities, you know that we have made a two-room addition to the Clark School, but we cannot commit ourselves on the sustained adequacy of our present facilities since it would require the powers of a seer and the skill of a juggler to weigh and balance such factors as the future economic health of the nation, the continuance of the trend toward suburban living, i.e., Amherst as a "bedroom town" for Milford, Nashua, and Manchester, and finally, a not unlikely local real estate expansion.

The school census early in September showed entering classes of thirty-seven to thirty-nine pupils for the next four years. The census also revealed that of the forty-four registered for the first time, fewer than ten were renting and so were not property owners. There were 577 children from under one year and up to eighteen years, of which about 295 were in grades one through eight, plus 52 high school pupils. It has become our yearly custom to point out the increased enrollments: counting only elementary pupils for the

past three years gives us pause because in 1951 there were 247; in 1952, 253; in 1953, 297; and for 1954 we can count 320. The number of high school pupils during the same period has risen from the middle forties to an expected 75. These figures are part of the reason for the continued rise in the appropriations.

Those of us interested in the public schools have read with alarm the figures of the growing teacher shortage. Last June college and training schools graduated 22,443 men and women trained to enter teaching in the elementary grades. The annual loss of teachers in this category through retirement, death or marriage runs to 60,000 nationally. We are fortunate that to date Superintendent Harold C. Bowley has been able to supply us with the necessary teachers. We enjoy a certain stability in the teachers who have permanent homes in or near our town. With the approaching retirement of Miss Piper in June we face a real problem in replacement. Nation-wide there has been a definite feeling of unrest and insecurity among teachers. For years our teachers have been underpaid. One way of providing a feeling of security for teachers is to set up a salary schedule which considers types of training and years of experience, both within and without the local system. Your board, working separately and with the teachers, has set up such a salary scale which places all our teachers in their respective classifications.

Another angle in the cost of educating children in towns largely residential and so almost entirely dependent upon the real estate property tax, is the need of federal and/or state aid to education. Let us keep in mind that New Hampshire is 47 of the 48 in such aid from the state level. Amherst received no state aid this past year and none will be forthcoming in 1954. Last year the amount was $3936.13, and in other years it has been between $2500.00 and $3500.00. New Hampshire has no state aid for construction of new buildings. Massachusetts provides 65% of the total cost, while

Vermont gives 25%. Your board strongly recommends that such groups in town as the Grange, P. T. A., and the Men's Club form committees to study these very real problems. Our schools are what we citizens let them be. Your board of three is glad to work with you, but the concerted study and effort of interested citizens can produce results.

Still another factor in the present organization of public schools is transportation. With the abandonment of the little red schoolhouse at the crossroads have come the central school in the village and the larger consolidation. It follows quite naturally that more and more pupils are transported more and more miles. The change in transportation here in Amherst parallels other school districts. To date about 195 of our 300 pupils are transported, not counting the 52 high school pupils. Ten trips in the morning and eleven trips in the afternoon are the daily requirements of the seven-passenger bus and two larger busses which have a combined maximum capacity of 102 pupils. The daily mileage of 75 miles demonstrates that Amherst is a widely scattered town with roads radiating from the village like the spokes of a wheel. It is of interest to know that 31,500 miles is the total for the school year. Since the high school pupils cannot arrive from Milford until 3:50, the board recognizes this has meant too long a school day for the younger pupils who must wait for their fellow-passengers. Beginning next September, the elementary children on Mack and Chestnut Hills will be carried home immediately, and the high school pupils from those two areas will be transported separately at 4:00. The increase in the budget under transportation of $1,674.20 takes care of a second bus twice daily to Milford High School as well as the aforementioned new trip.

In response to the question of sending the seventh and eighth grades to Milford as tuition pupils, the board decided to keep them here with us since the ed-

ucational advantages did not appear to outweigh sufficiently the cost of tuition and transportation of an additional 60-odd pupils.

Another recurring question concerning the situation of our high school pupils now attending Milford High School can best be answered by stating that we are fortunate in having a mutual agreement with Milford on a yearly contract basis. Nothing in the foreseeable future would indicate any change in this status. We are happy to send our high school pupils to Milford and they are equally pleased to have the tuition as well as the Amherst young people.

The 1954 school board report cannot close without mentioning again the June retirement of our principal, Miss Bertha L. Piper, after thirty-eight years of service to Amherst and our boys and girls. To many of us Miss Piper and school have become synonymous. Over the years as the personnel changed, with inexperienced or new teachers and principals coming in, Miss Piper has been the stabilizer, the keystone in the arch of the past and future school years. It is superfluous to point out that her absence will mean a real change in our schools. For the past three years she has been the principal, aiding immeasurably in the transition from an elementary-high school system to only elementary. We must acknowledge a feeling of sadness inherent in retirement. The adjustment for both her and us will be difficult at times, but we prefer to turn our thoughts forward, wishing that this well-earned rest will mean happy years ahead of recreation, travel and relaxation.

Respectfully submitted,

KENNETH GOODWIN, Chairman
DOROTHY DAVIS, Secretary
CURTIS WORTHEN
Amherst School Board.

ADMINISTRATION

I present herewith my fifteenth report under three headings. Elsewhere statistics comprise our report.

A. Instruction

The change in organization affecting the first grade brought in Mrs. Barbara Williams as a new teacher. Mrs. Dorothy Paire of South Lyndeboro has but recently replaced Mrs. Williams who was compelled to leave because of family conditions. Mr. Lionel DeLacey of Berlin and Plymouth Teachers College was chosen to succeed Mr. Harold Angers in Grade six.

The recent Testing Program and Workshop met with spendid response from your teachers. I am very proud to commend them and to bespeak the results as an aid and guide to improve teaching.

B. Finance

Per pupil costs of last year's work are not available yet but predictions are that they will show an increase due to added expenses. Reference to last year's reports will give you an idea what this may mean.

Due to factors beyond our control, State Aid was not available this year to Amherst. The formula for the computation of State Aid is based upon numbers of pupils to support and the ability to support as evidenced by a 17 mill tax on the adjusted Valuation. There were more pupils but the valuation increased so much that the computation showed greater ability than need; hence, no aid. Although it has not been announced yet, no state aid is expected for the coming school year.

C. Needs

I am only reiterating my suggestion of Art Instruction. Because of so many expense items this year, this program was eliminated when an instructor was unavailable. Now that we have one available, money isn't. I hope this program will not be discarded permanently.

What kind of schooling do we want for our children?

Of course, I want my boy to learn the 3 R's — they are the tools for making a living for himself and family. I want my girl to know music, art, literature as well as the 3 R's, Cooking and Sewing, too. I want them to learn to think and make decisions, to work and play with others, to do his share in government. These are the 3 R's plus 3 more. Altogether they are the 6 R's — Reading, 'Riting, 'Rithmetic, Rights, Responsibilities, (Human) Relations. These 6 R's make for good citizenship. That kind of schooling must have good teachers and, of course, we must pay the price.

My gratitude for a good year's work goes to the Teachers, the Board and other close associates. I congratulate you, citizens, upon the completion of added facilities. You must be proud to see your children in these attractive surroundings.

Very respectfully,

HAROLD C. BOWLEY,
Superintendent of Schools.

THE HELPING TEACHER SPEAKS!

The work of the "Helping Teacher" is exactly what the name implies. The basic task of such a person is to help children, and this is done mainly by helping the children's teachers. During the first three months that this position has existed, the program of the Helping Teacher has evolved. It has been based upon the needs of the teachers as determined by a total of 289 classroom visits and many conferences with teachers, parents, and others concerned with the education of children. This program may be stated briefly as follows:

Scheduling, Curriculum Planning and Coordination

Beginning teachers, especially, seem to find it difficult to determine how to fit the day's program into the time allowed. There is often the problem of how much time should be given each subject or activity or for each group within the class. Help is sometimes needed in planning the curriculum and having it coordinated from grade to grade and at each grade level.

Teaching Techniques

Teachers coming back into the profession after having been out of it for several years have asked most often for help in teaching methods. Even experienced teachers are always searching for better methods and professional improvement. Those desiring it have had opportunities to observe demonstration lessons and outstanding work done by other teachers.

Testing Programs

Testing programs are an important phase of education as an aid to understanding each child's progress, needs, and abilities. Help is available to the teacher in giving, interpreting, and making use of tests.

Pupil Guidance

Pupil guidance is as necessary to the pupil in the elementary school as it is during any other stage of his educational development. His individual needs are considered and opportunities are given him to progress at his own rate through grouping within the class, and by enabling him to have socially and emotionally satisfying experiences. Whenever a pupil is found to have some particular problem which prevents his adjustment to the school situation an attempt is made to determine the causes and eliminate the problem. To do this, it is often necessary to have conferences with the teacher, parents, school nurse, and other sources of help, and then to plan a special program for this child.

Resource Person

Many teaching and professional materials have been made available, and also suggestions and arrangements made for the use of other resource persons. There have been illustrated talks to classes on various subjects coming within the social studies field and based upon travels to North Africa, Europe, Labrador, Bermuda and South America. Typical topics have been "Ancient Civilization," "Homes in Other Lands," etc.

Public Relations

Everyone concerned with the education of children should know the aims of the school and how the school is meeting these aims. A closer relationship between the home and the school works directly to the advantage of the child.

I should like to express my appreciation to Mr. Bowley and the members of the school boards of Union No. 40 for the confidence placed in me in the assignment of this position and the freedom allowed me in the development of its program according to the needs of the teachers and children in the Union. I wish also

to thank the parents, principals, and teachers throughout the Union for the splendid cooperation they have shown me. Without such cooperation the role of Helping Teacher would be impossible.

Respectfully,

MABEL I. CONNOLLY,
Helping Teacher.

PRINCIPAL'S REPORT

To the School Board, Superintendent of Schools, and Citizens of Amherst:

I present herewith my third annual report of the Amherst Elementary Schools.

Attendance on the opening day of school in September was 291; of these 164 were boys and 127 were girls. We have lost quite a number of pupils by removal from town, but their places have been taken by new ones moving in so that our present enrollment is 294. Owing to the large number of first grade children – there are 58 at this time – we have two first grade rooms. One of them is taught by Mrs. Dwight Brown and the other by Mrs. Newell Paire. From the very large third and fourth grades, children were removed to make a mixed grade, taught by Mrs. George Kittredge at the Brick School. The work on the two new rooms at Clark School progressed rapidly and, by the middle of January, Mrs. Maurice McGee with her third grade and Mrs. Elmer Greenhalgh with the second grade, moved into the two new rooms.

As a member of the Building Committee, I should like to express my thanks to everyone connected with this project for the speedy and splendid way in which the work has been completed and for the very attractive classrooms that have resulted.

Attendance, on the whole, has been very good, particularly in the upper grades. The pupils were given medical inspection by Dr. Oscar Burns early in the year and the school nurse, Mrs. Francis Maguire, by her constant watchfulness and checking has kept illness at a minimum. A Dental Clinic, under the direction of Mr. Edward Walsh, is in progress at the present time. The Clinic conducted last year and under the same management, was very successful.

Mrs. Norman Slayton, assisted by Mrs. Merton

Brown, grade mothers, and by eighth grade pupils continues to provide hot lunches, with an average of about 125 persons being served daily. As has been the custom the past two years, pupils from Clark School are conducted to and from the Town Hall where the lunches are served. This year Clematis Jones and Choral Murray have been in charge and much credit goes to them for the efficient way in which they perform this task. A committee of six people meets monthly to plan the program for the Hot Lunches. Gifts of money have been received from the Souhegan Club, Legion Auxiliary, Woman's Association, King's Daughters, Amherst Men's Club, Grange, and from Mrs. Charles Lincoln and from Mr. and Mrs. Philip Holmes. This money has made possible hot lunches for several children who otherwise would not have been able to have them. The Hot Lunch committee is deeply appreciative for this aid.

Pupils of the Brick School, although they have been unable to have the use of the Annex as formerly, have nevertheless enjoyed records, the film strip machine, and motion pictures as usual. Beginning soon, these activities will again be conducted in the Annex which will also serve as a Bus Station for grades 4-8. At Clark School a teacher is on duty both morning and afternoon with children arriving or waiting for the busses. We appreciate the care and planning of Mr. Malcolm Clark and his splendid drivers that makes our school transportation system such a good one.

There has been no Art Supervisor this year, but nearly all the teachers have had much training in Art so the subject has received its usual attention, and very creditable work has been accomplished.

Miss Elsie Wheeler, as Music Supervisor, spends part of each Thursday in Amherst Schools. I feel it would be most desirable if she could spend more time with our classes. Not only does Miss Wheeler teach her regular classes but she had charge of the Closing

Day music, Memorial Day music and assisted at the Clark School with the operetta, "The Selfish Giant," which was presented to the people of Amherst in May. The operetta itself was very well done and the costumes, made by the mothers, were most attractive.

Fifteen children have had special training each week in lip reading and in speech. Mrs. Catherine Hammond has been the instructor.

The 4-H Club, successful the past two years, has been discontinued but Mrs. Arnold Wight meets with some 28 fourth grade girls each week for a Sewing Club and Mrs. Chester McGrath has a Sewing Club with the girls of the fifth grade.

The School Patrol, organized from boys of the 8th grade, continues this year to do good work. The captain is Kenneth Langley and the lieutenants are Ronald Piper and Dirke Le May. These boys direct traffic at street intersections so small children may cross safely; help with loading and unloading busses, patrol the street near the Town Hall at noon, and help to maintain order on the playground.. These boys are doing a good job, but they need raincoats badly for their patrol duty in bad weather. We wish there was some way in which these could be provided.

In June Mrs. Brown gave a tea at which all mothers of children who would enter school in September were guests. The children were registered at that time and questions were answered as to school procedure. There was a large attendance and we thought it a very worthwhile occasion. Mrs. Brown tells me that a similar tea is planned for this year.

Mrs. McGee and Mrs. Greenhalgh are taking an extension course in Milford, and Mrs. Greenhalgh and Miss Boutelle have Art courses at the Institute of Arts and Sciences in Manchester.

Open House was observed at Brick School in November at which all teachers were present. Late in January an Open House was held for the Clark School

when an opportunity was given the citizens to inspect the new classrooms.

I do want to express my appreciation to all the teachers, without whose never-failing cooperation and help, our schools could not succeed. Also to the School Board of Amherst, to Superintendent Bowley, to Miss Connolly, to the Parent-Teachers' Association and to all the parents and citizens of our town who have aided us in all we have undertaken for the good of the Amherst children, I should like to express deep gratitude.

Respectfully submitted,

BERTHA L. PIPER,
Principal.

ENROLLMENT TABLE AS OF JANUARY 15, 1954

Grades	1	2	Over-Flow	3	4	5	6	7	8	Tot.

Totals	57	34	21	33	29	33	32	26	29	294
Boys	39	14	7	19	14	24	20	10	14	161
Girls	18	20	14	14	15	9	12	16	15	133

REPORT OF THE BUILDING COMMITTEE

Upon the acceptance of Articles 12, 13, and 14 of the warrant at the Adjourned School District Meeting, June 26, 1953, John C. Duff, Richard D. Le May, Bertha L. Piper, and Donald O. Young were appointed by the Moderator, who, with the School Board constituted the Building Committee.

The first meeting of this committee was held on June 30th, at which time Mr. Le May was elected chairman, Mr. Young, secretary, and Mr. Duff, finance chairman. Mr. Carl E. Peterson was selected architect at the customary rate of 6% for plans, specifications and supervision.

Frequent committee meetings were held thereafter with the architect. Plans and specifications were released to the contractors for figures, and bids were opened on August 8th. All exceeded the appropriation. Careful revisions of plans and specifications necessitated new bids on September 10th.

A meeting with the low bidder, Blanchard Stebbins of Manchester, and the architect brought further revisions, so that finally on September 11th, the School Board signed a contract with Mr. Stebbins for the full amount of the appropriations, namely, $35,000.00.

After due deliberation this action to expend the entire amount of the appropriation for actual construction, exclusive of the architectural fee, was an unanimous decision made by the building committee. The urgency for additional classroom space as soon as possible influenced this decision. The architect offered to await payment until an article could be placed in the next School Warrant. (See Article 9 of the Warrant.)

Through the splendid cooperation of both Mr. Peterson and Mr. Stebbins working with the entire building committee, it was possible in approximately four months time, for grades 2 and 3 to occupy their new classrooms on January 18, 1954.

The building was formally opened to the public on January 31st. The teachers, building committee and school board were hosts to about one hundred and fifty townspeople and guests who were most generous in their approval and commendation.

The new construction, on ground level, is connected with the southern end of the original Clark School in such a way as to provide access to both levels of that building, and can be expanded by steps into a complete school unit.

The two attractive classrooms are fine examples of current modern design in every respect. Each has excellent light, ventilation, two exits, two closets, suitable coat racks, sinks with a bubbler and both hot and cold water, to name only a few of their appointments, plus the many carefully considered details all of which serve to make them extremely functional.

The large toilet rooms are designed to accommodate additional fixtures. The teachers have their room with toilet and another closet. Another room which may be used for meetings and conferences temporarily will eventually become part of a corridor. The new sectional boiler which serves both old and new rooms is of a type which can be enlarged.

Your committee considers it has carried out the true intent and purpose of your trust as best expressed and recommended in that portion of the Report by the Special Multiple Committee, elected and appointed at the School District Meetings of November 28, 1952 and March 6, 1953 which reads: "What we recommend — that a two-room addition, with necessary supplementary facilities (toilets, etc.) be made to the Clark School in such a way that the resulting building including the Clark School, can be expanded by steps into a complete school building."

Respectfully submitted ,
RICHARD D. LE MAY,
Chairman.

FINANCIAL REPORT OF AMHERST SCHOOL BOARD

(For the Fiscal Year July 1, 1952 to June 30, 1953)

TOTAL RECEIPTS	$61,018 48
TOTAL PAYMENTS	58,564 62
Cash Balance June 30, 1953	$ 2,453 86

RECEIPTS IN DETAIL
